

# Saloon Bar Shoot Out

046

DRAW

958

## Features include:

- A 3 dimensional fibreglass cowboy with a robotic arm movement
- An easily transportable & compact saloon bar themed cabinet
- Realistic swinging saloon doors • Authentic chap stands
- 2 competition timers • Quick & easy one person set-up

and if that's not all, wild west sound effects & music.....

**Colt 45  
Guns !**

Sounds of wild west gunfire, saloon bar honky tonk piano music, and even the world famous FUNERAL MARCH by Frederick Chopan is played, which only adds to the authenticity of this fantastic and unique quick draw game.

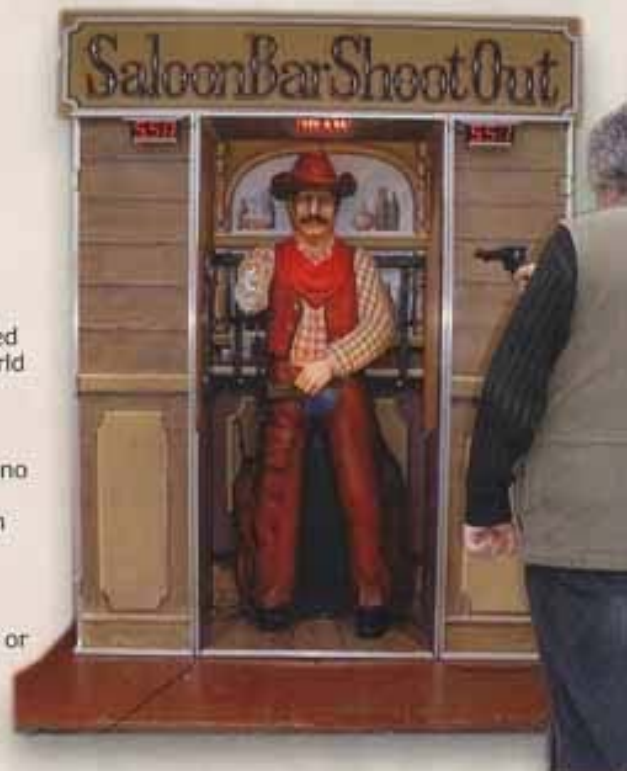

## How to play

Each player stands in front of the Saloon Bar Shootout ready & prepared to draw their guns from the holsters on the free-standing chap stand, as soon as the saloon doors and open.

At the top of the saloon bar there is a DRAW sign. This sign will instantly illuminate when the saloon doors open, together with additional lighting which is positioned inside the cabinet.

When the saloon doors open each player has to reach for their gun, which is a Colt 45, and shoot the cowboy. As long as the players fire towards the cowboy, then both players times will be recorded.

Each players time is recorded on the digital timers which are displayed on the top left and right hand side of the saloon bar.

When each player has shot the cowboy, they will then be greeted with the distinctive sound of gunfire and the very distinctive world famous music by Frederick Chopan ... the FUNERAL MARCH

### **The player with the quickest time is the winner!**

Whilst the game is not in use, saloon bar theme honky tonk piano music will be played at intervals of 3 to 4 minutes which will attract the attention of spectators and encourage new players in the vicinity.

The Saloon Bar Shootout is a very compact self contained unit which can be transported in any lightweight commercial vehicle or large hatchback car.

The self contained purpose built flight-case style cabinet:

- Prevents any damage to the Saloon Bar Shootout during transit
- Keeps your Saloon Bar Shootout dry & secure when not in use
- Gives a very professional approach to your customer

The cabinet measures 1.9 meters tall x 0.86 meters wide x 0.6 meters deep, and when set-up measures 2.27 meters tall x 1.74 meters wide.

With the aid of a sack barrow, the cabinet can be manoeuvred in and out of venues, and can easily be set-up by one person in less than 10 minutes.

**No western themed event is complete without this very authentic & realistic Wild West Saloon Bar Shootout!**
